Tech Nation UK – Evidence that I Led the Growth of Product-Led Digital Technology Company | Joy Omowaye

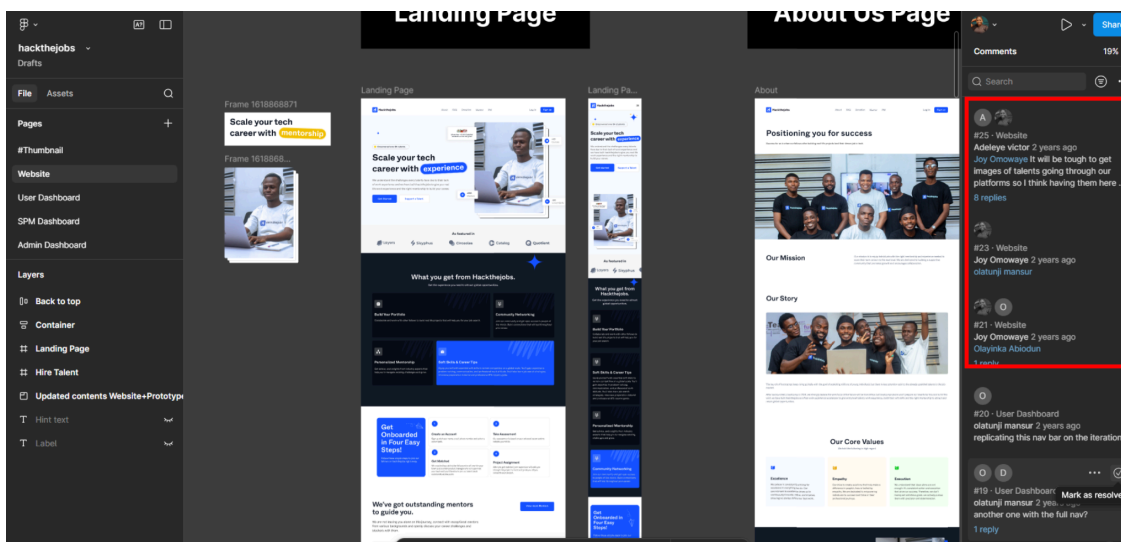

Company: [Prooval](#) (Formerly Hackthejobs) SAAS

Role: Founding Product Designer (& Product Manager – Version 2)

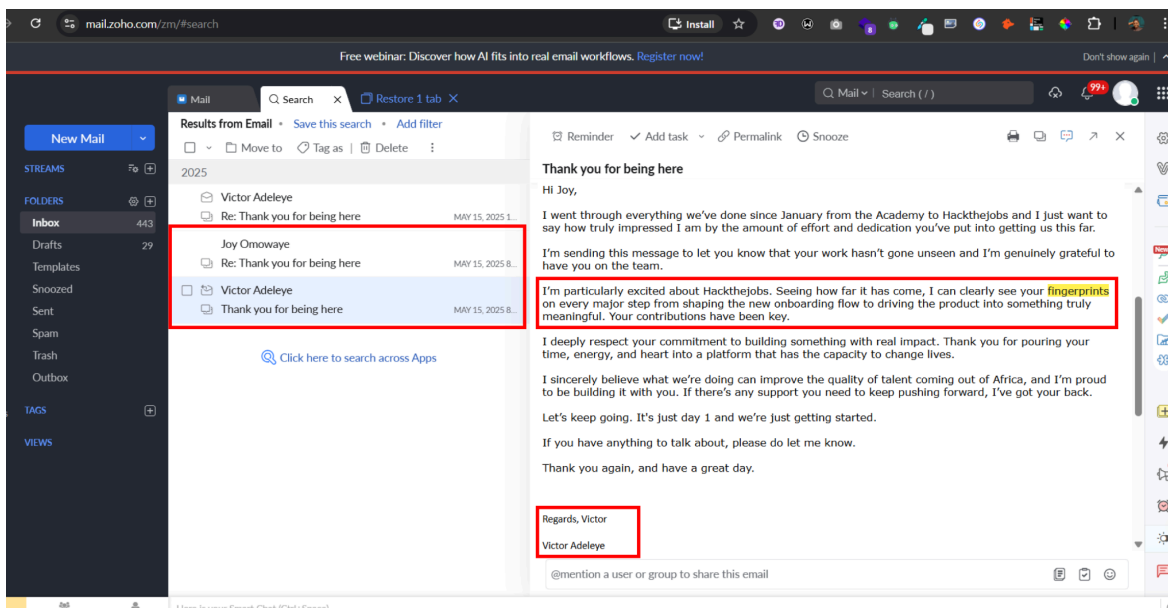

Projects: [Prooval Design](#)

Prooval is a digital tool created for experts to monetize their skills in one place. As **Founding Product Designer**, I led product direction and delivery, resulting in growth **from an idea** to over **16,000 users**, **\$362,000+ in revenue** (approximately £270,000), **2,000+ products listed**, and **4,200+ bookings made**, all within **7 Months** of pivoting.

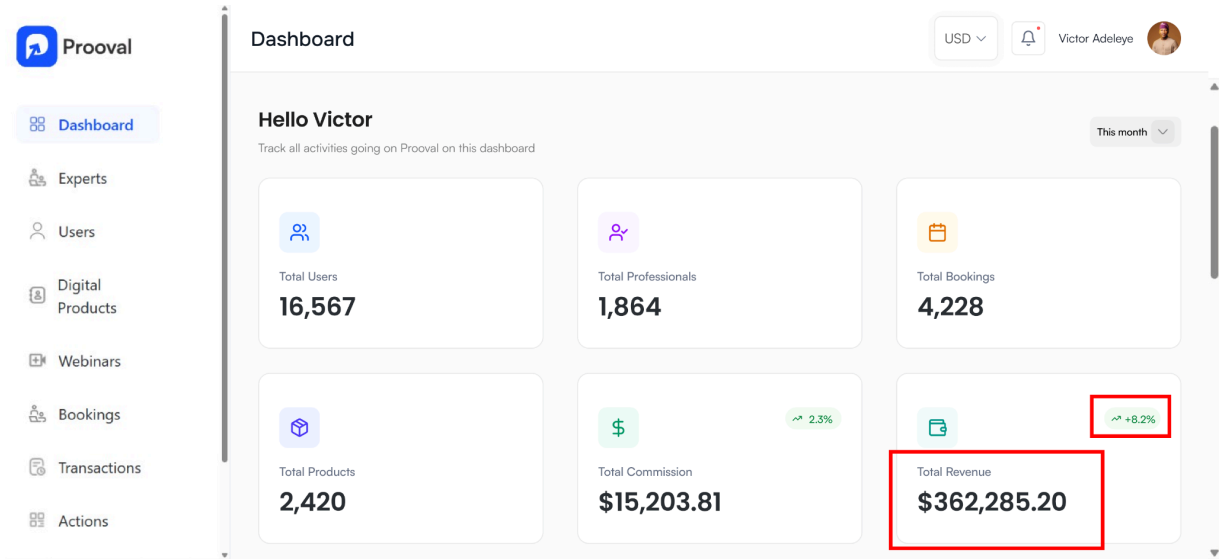

I designed Hackthejobs from concept stage in 2024 to a live product used and tested by its first users, growing **from 0 to 500 mentees and 150 mentors** within the first **3 Months** of launch. Within 5 months, the platform expanded to over **2,500 mentees and 500 mentors** across **multiple countries**, averaging **20+ active project collaborations** monthly before pivoting to Prooval.

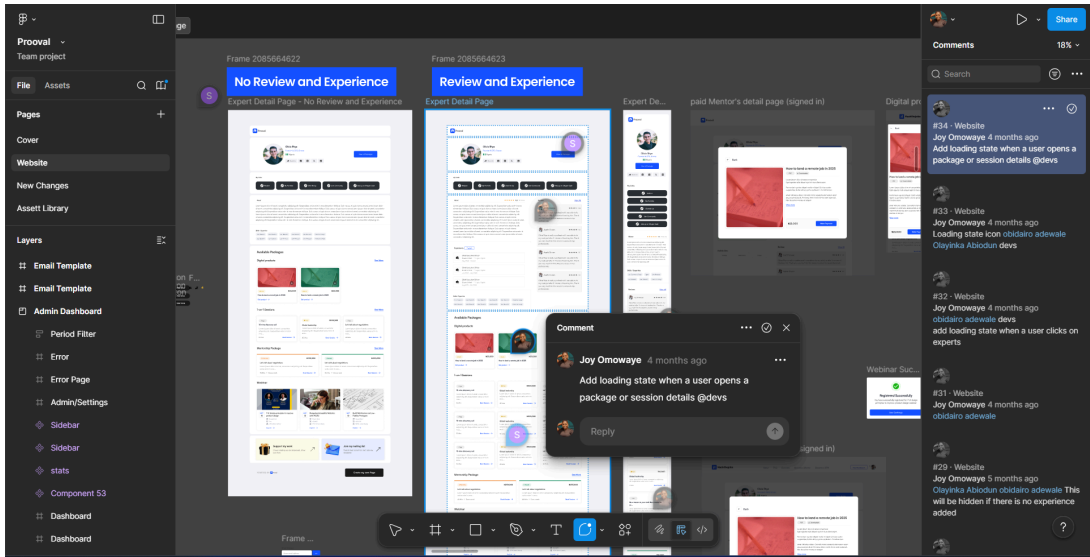

IMG 1.0: See the early [Figma designs](#) that shaped Hackthejobs Version 1 and Version 2, where I later led product delivery, resulting in **increase in user engagement** and successful **project collaborations**.

IMG 2.0: Screenshot of the **CEO’s appreciation email** in 2025, commending my leadership in **shaping product experience and driving company growth**.

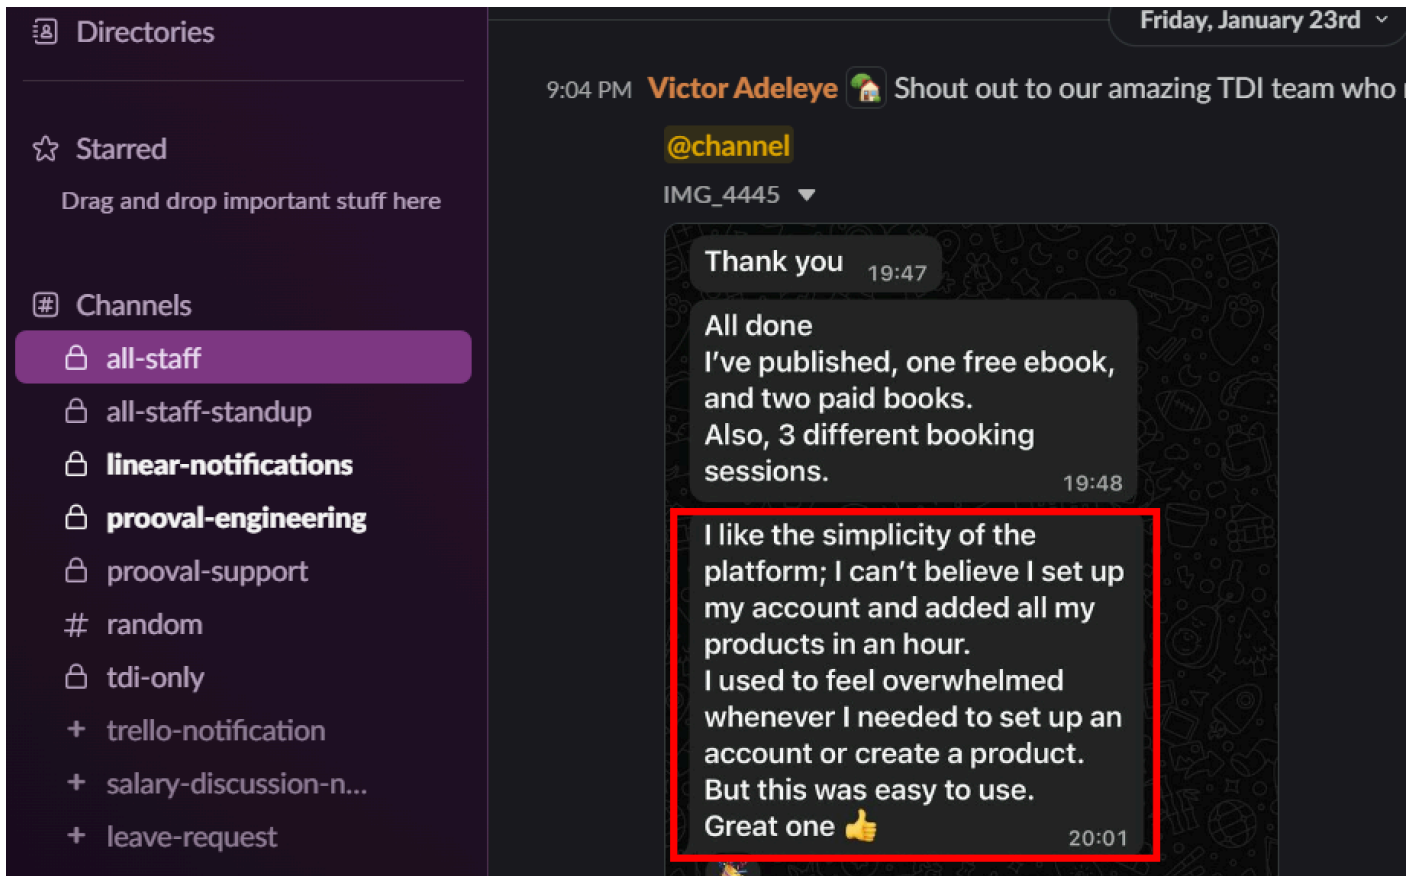

IMG 3.0: Screenshot of the Live admin dashboard showing 16,567 users and **\$362,285 (approx. £270,220) revenue**, reflecting actual product usage and revenue generated within 7 months post-pivot.

IMG 4.0: [Figma file screenshot](#) showing my leadership in sprint planning, feature iteration, and collaboration with a **team of 6 engineers** during Version 2 development, contributing to revenue **growth** post-iteration.

IMG 5.0: Picture evidence of **representing Hackthejobs** as Product Lead at major industry events, including GITEX (Nigeria 2024), alongside Salem King, Seye Bandele (CEO, PaidHR), and Joshua Chibueze (Co-Founder, PiggyVest).

IMG 6.0: CEO's Slack message sharing **client feedback** praising the Prooval's simplicity and ease of use, reflecting the impact of my **product and UX decisions**.

My role and contributions to Prooval are further detailed in the CEO's recommendation letter submitted with this application.
